

Lisa Singer

I've been in religious communities since birth, so spiritual contemplation, growth, and prayer have always been a big part of my life. At a time when I was searching for a local church community, I found my way to Unity of Bellevue in 1998. That first meditation and service were life changing and I knew I'd finally found the spiritual home I'd been seeking. And, yes, I still make use of the tissue boxes every now and then!

I'm always inspired to see so many of the same and new faces here who are so dedicated and love this community as I do. You have inspired me to become more involved and to take on more roles here:

- I conceived of and led the planning for the Covid Remembrance Ceremony held in Summer 2023, to help us honor all the different kinds of losses we experienced and continue to experience from the pandemic. We incorporated art, healing, Unity prayer, and other spiritual traditions into the ceremony and displayed these on the prayer flags hanging in our north contemplation garden area.
- I attained Reiki 3 training in 2023. Over the last few years, I've rarely missed a prayer circle which has greatly deepened my prayer life, and in early 2024, I became a prayer chaplain.

I'm incorporating these experiences and lessons into my prayer life, relationships, and volunteer service.

My work background is in engineering and capital project management, for both design and construction, including 30 years in public service. I loved working for my community and creating public spaces and facilities that serve individual, community, practical and artistic needs.

In addition to my love of Unity principles and nerdy engineering concepts, I get much joy out of my pets, the wildlife in my yard, dancing, learning, and dabbling in art.

Although what we do and how we do it may evolve, the spirit, love and enthusiasm in our Unity of Bellevue community are a constant. I'm honored to serve on the Board and help "carry the torch" into our next evolution.
